

High Density, Tall Dry Cabinet 702 Series

Tall dry cabinets with high density storage ability

XDry Competitively Priced Dry Cabinets

Standing at almost 2 meters tall, designed with 2 doors, configured standard with 5 shelves and industrial grade castors, the 702 Series provides a stable environment as low as 2% RH when equipped with a single X-133 dryer and can be upgraded to accommodate a second dryer, delivering an ultra-low 1% RH. Adding additional shelves makes this an excellent high density, easy to relocate dry storage solution.

702 Series

System Options

Xtra-GAS N2 Systems

Anchoring Legs

Alarm Light Tower

Custom configurations available.

Measurements expressed in cm

Standard Features

- ▶ Stainless steel shelves
- ▶ Control panel lock
- ▶ ESD painted surfaces
- ▶ Humidity alarm buzzer
- ▶ Calibration offset
- ▶ Door activated air circulation
- ▶ Digital control panel
- ▶ Sensor +/-2% RH
- ▶ Pre-wired for field retrofittable options

Options

- ▶ Xtra-Heat
- ▶ RH/C° data recorder
- ▶ HEPA filtration
- ▶ Alarm light tower
- ▶ Casters anchoring legs
- ▶ Additional dryer
- ▶ Sliding rail rack
- ▶ Custom engineering
- ▶ Nitrogen purge system
- ▶ Stainless steel construction
