*For Manufacturing, Laboratories and Preservation*

## DRY CABINET STORAGE

**XDry humidity-controlled storage cabinets are self-contained, low-maintenance storage systems. There is no need for nitrogen or compressed air, just plug into the wall and they are ready to go! XDry storage cabinets satisfy standards such as IPC/JEDEC J-STD-033 and IPC/JEDEC J-STD-020. The cabinet environment can be maintained from ambient to 1% RH, providing constant & stable storage at precisely desired RH levels.**

**XDry cabinets are the ideal solution for printed circuit board and moisture-sensitive component storage.**
